

communication channel [(K) ensues] on demand.

AB

6.(Amended) A method [Method] according to claim 1, wherein [one of the preceding claims, characterized in that] the at least one communication channel [(K)] is transmitted via carrier that are not line-bound.

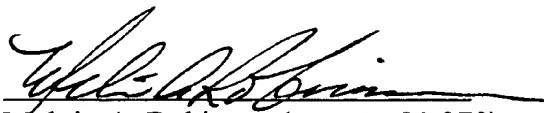

5 **IN THE ABSTRACT**

In line 1, change "Abstract" to --Abstract of the Disclosure--;
delete lines 2-3; and
delete line 11.

REMARKS

10 The foregoing amendments to the specification and claims under Article 41 of the Patent Cooperation Treaty place the application into a form for prosecution before the U.S. Patent and Trademark Office under 35 U.S.C. §371. Accordingly, entry of these amendments before examination on the merits is hereby requested.

15 Respectfully submitted,

Melvin A. Robinson (reg. no. 31,870)
